

# Mystery Monday #9

Let's begin ~

Bag handle ~

- \*With wrong sides together, fold long edges of 4" X 31" handle to meet in the center. Press.
- \*Open one side, place cotton webbing strip along folded edge inside. (You will have ½" of handle fabric on both sides that won't have cotton webbing in it. This makes it easy to stitch into bag.)
- \*Fold in half again and press.
- \*Top stitch along both long edges of handle. Make 2.

Part #5
